

TABLE 1. LINGUISTIC COMPETENCE ACROSS CEFR LEVELS

Pedagogical Activity Matrix • Playful & Concrete Activities Aligned to 4 Macro-Skills and 21st Century Mediation Projects

GROUP 1: FOUNDATIONAL LEARNER (CEFR Pre A1) • Play-Based Sensory Learning, Sound Awareness & Emergent Literacy

PROFICIENCY LEVEL & CEFR REFERENCE	LISTENING (LÚDICA & CONCRETA)	READING (LÚDICA & CONCRETA)	SPEAKING (LÚDICA & CONCRETA)	WRITING (LÚDICA & CONCRETA)	MEDIATION (21ST CENTURY) THEME 1 & THEME 2 PROJECTS
Pre-K (Pre A1.1) Kinder (Pre A1.2) Pre A1 Focus: Building a foundation in English sounds, letters, and basic vocabulary. Key Considerations: Play-based learning, sensory activities, visual aids, total physical response (TPR), labeling, and modeling. Linguistic Components: Primarily phonology (sound awareness), with beginnings of letter recognition (orthography) and basic vocabulary (semantics).	1. Sound Detective & Musical Statues (TPR) Materials: Realia objects (book, ball, desk, crayon) & drum. How it works: Teacher beats rhythm and makes target sounds (/s/ snake, /b/ bounce). When rhythm stops, teacher calls "Touch the yellow pencil!" Children run safely to touch real objects. Evidence: Responds non-verbally with accurate physical touch.	2. Sensory Sandpaper & Object Match Materials: Textured alphabet cards (A, B, S, M) & mini toy basket. How it works: Children trace sandpaper letters with index finger while vocalizing the phoneme (/b/), then place miniature realia (ball, book) inside the letter tray. Evidence: Correctly associates initial letter shape with target sound and concrete object.	3. Magic Box Puppet Echo & Turns Materials: "Sammy the Sloth" puppet & mystery treasure box. How it works: Puppet pulls out a classroom item, pretends to be surprised and asks: "What is this?" Children echo: "A book!" and practice polite turns: "Hello Sammy! Thank you!" Evidence: Produces single high-frequency words and basic polite greeting with puppet.	4. Playdough Letter Sculpt & Air Trace Materials: Colorful playdough, laminated letter mats, water brushes. How it works: Children roll playdough "snakes" to shape letter lines (I, T, O), then use wet paintbrushes on small chalkboards to trace basic strokes matching classroom realia. Evidence: Demonstrates fine motor grip and emergent letter stroke formation.	THEME 1: Project 1 (Social Mediation) - Classroom Kindness & Routine Wall: In pairs, learners match visual icon cards ("Share toys", "Sit nicely", "Big ears listen") and stick them onto a classroom mural, guiding peers with gestures. THEME 2: 21st Cent. Skill Project 2 - Sensory Color Sorting Challenge: Small teams solve a concrete sensory puzzle ("Help the teddy bear find 5 soft green items") and show a smiley badge.
Grade 1 (Pre A1.3) Grade 2 (Pre A1.4) Pre A1 Focus: Expanding vocabulary, basic grammar, and simple communication. Key Considerations: Visual aids, sentence frames, repetition and practice, corrective feedback, collaborative activities. Linguistic Components: Phonology (sound awareness), morphology (basic word formation: plurals -s), syntax (simple sentence structures: SVO), semantics (basic vocabulary).	1. Action Relay & Color-Shape Bingo Materials: 3x3 illustrated bingo grid & foam stamps. How it works: Teacher calls syntax cues: "The boy touches a red chair" or "Find two pencils". Students identify syntax cues (color + noun, number + plural) and stamp grid. Evidence: Discriminates plural endings (-s) and color modifiers from oral instructions.	2. Phonics Hopscotch & Pocket Chart Materials: Floor hopscotch mat (CVC words: cat, desk, pen, bag). How it works: Child hops onto word tile, sounds it out, picks the corresponding card, and inserts into pocket chart frame: "[The pen] is [blue]." Evidence: Blends phonemes into simple CVC words and reads basic sentence frame.	3. Market Basket Realia Role-Play Materials: Toy market stall, play fruit/supplies, sentence strips. How it works: In pairs, Student A is shopkeeper, Student B is shopper using stand frame: "Can I have the [red apple], please?" / "Here you are!" / "Thank you!" Evidence: Delivers 2-turn polite exchange using simple formulaic frames.	4. Color-Coded Sentence Train Builder Materials: Magnetic colored word blocks (Yellow=Subject, Green=Verb, Blue=Object). How it works: Children snap blocks together ("I" + "see" + "three books"), copy sentence into primary lined notebooks, and sketch the scene. Evidence: Constructs simple SVO sentence with correct word order and spacing.	THEME 1: Project 1 (Peer Mediation) - Classroom Helper Buddy Passport: Students pair up; one guides a peer to find missing classroom realia using visual-gesture directions, stamping their partner's "Helper Passport". THEME 2: 21st Cent. Skill Project 2 3-Step Daily Storyboard & Audio: Teams sequence 3 illustrated steps ("First I wash hands", "Next I eat"), record a tablet voice snippet, and present to class.

TABLE 1. LINGUISTIC COMPETENCE ACROSS CEFR LEVELS

Pedagogical Activity Matrix • Playful & Concrete Activities Aligned to 4 Macro-Skills and 21st Century Mediation Projects

GROUP 2: BEGINNER (CEFR A1) • Expanding Expression, Graphic Organizers, Compound Syntax & Peer Collaboration

PROFICIENCY LEVEL & CEFR REFERENCE	LISTENING (LÚDICA & CONCRETA)	READING (LÚDICA & CONCRETA)	SPEAKING (LÚDICA & CONCRETA)	WRITING (LÚDICA & CONCRETA)	MEDIATION (21ST CENTURY) THEME 1 & THEME 2 PROJECTS
Grade 3 (A1.1) A1 Beginner Focus: Expanding expression and comprehension through vocabulary, grammar, and communication. Key Considerations: Visual aids, graphic organizers, sentence frames, model texts, peer feedback. Linguistic Components: All 4 components; syntax moving into basic compound structures (and, but); semantics with category vocabulary (places, community, family).	1. Information-Gap Drawing Relay Materials: Barrier divider, clue audio/cards, sketch pads. How it works: Student A hears: "The library is next to the bakery, and a girl has two balloons." Student A describes to Student B across divider. Partners compare drawings. Evidence: Extracts key location prepositions and compound clauses to draw details.	2. Dialogue Strip Scramble & Highlight Materials: Comic dialogue strips on cardstock, colored highlighters. How it works: Trios read scrambled strips of a polite dialogue ("Can I borrow a pencil?", "I need it because..."), sequence conversation in order, and highlight connectors ("and", "because"). Evidence: Reconstructs conversational flow and identifies coordinating conjunctions.	3. "Where Am I?" Location Board Game Materials: Illustrated town board, character counters, question cards. How it works: Students land on places (hospital, park, market) and draw prompt cards: "I am at the park and I am playing soccer with my friend." Peer verifies grammar with token. Evidence: Speaks 2 connected sentences combining place and activity.	4. Comic Strip Speech Bubble Workshop Materials: 3-panel illustrated comic template, word bank. How it works: Students write dialogues for characters sharing classroom items or asking directions: "Excuse me, where is the library?" / "It is near the school, but it is closed." Evidence: Writes short dialogue with accurate capitalization, question mark, and connector.	THEME 1: Project 1 (Community Mediation) "Where Am I?" Interactive Community Map: Teams draw a town map, labeling places with "I'm at the..." and act as friendly guides helping foreign visitors navigate. THEME 2: 21st Cent. Skill Project 2 - Digital Classroom Politeness Campaign: Students design illustrated kindness stickers with rules ("Please share crayons and say thank you") to display in class.
Grade 4 (A1.2) Grade 5 (A1.3) A1 Beginner Focus: Expanding expression and comprehension through nuanced vocabulary and compound sentences. Key Considerations: Visual aids, graphic organizers, model texts, sentence frames, peer feedback. Linguistic Components: Syntax (compound sentences with and/but/or/because, past simple beginnings), semantics (adjectives of degree, feelings, community roles).	1. Setting & Emotion Detective (Audio Sort) Materials: Audio clips (home vs. school vs. store dialogues), tally sheets. How it works: Students listen to 3 short scenarios, identify the setting, speaker relation, and mood ("Are they happy or worried? Why?"), sorting picture tokens into Venn organizers. Evidence: Identifies setting and infers reason from spoken compound sentences.	2. Jigsaw Culture & Nature Fact-Finder Materials: Short illustrated texts about Panamanian traditions (Pollera, Harpy Eagle). How it works: "Expert groups" read about one topic, complete a graphic organizer (Habitat, Food, Why it's special), then teach home group using sentence frames. Evidence: Extracts factual details and contrasts similarities/differences using T-charts.	3. Speed-Interview & "Two Stars" Feedback Materials: Question cue cards ("What do you like to do on weekends and why?"). How it works: Students rotate every 2 minutes. Partner answers using compound frames ("I like soccer because it is energetic, but my sister likes art"). Partner gives 2 stars + 1 wish. Evidence: Sustains 3-4 sentence oral response with connectors and peer feedback.	4. Illustrated Postcard & Mini-Brochure Materials: Foldable brochure template, model texts. How it works: Students draft a 4-5 sentence postcard describing a trip in Panama: "Dear Maria, I am visiting Boquete. The mountains are high and cool, but it is raining today." Evidence: Organizes greeting, descriptive compound sentences, and closing.	THEME 1: Project 1 (Cultural Mediation) - Panamanian Traditions Cultural Showcase: Teams create a mini-booth (Realia + Poster) explaining a local custom (Carnavales, Diablicos) using simplified English for peer visitors. THEME 2: 21st Cent. Skill Project 2 - Eco-Friendly School Waste Reduction Plan: Students audit classroom trash, build a visual bar chart, and design bilingual posters proposing recycling solutions.

TABLE 1. LINGUISTIC COMPETENCE ACROSS CEFR LEVELS

Pedagogical Activity Matrix • Playful & Concrete Activities Aligned to 4 Macro-Skills and 21st Century Mediation Projects

GROUP 3: HIGH BEGINNER (CEFR A2) • Communicative Competence in Diverse Contexts, Authentic Texts & Pragmatics

PROFICIENCY LEVEL & CEFR REFERENCE	LISTENING (LÚDICA & CONCRETA)	READING (LÚDICA & CONCRETA)	SPEAKING (LÚDICA & CONCRETA)	WRITING (LÚDICA & CONCRETA)	MEDIATION (21ST CENTURY) THEME 1 & THEME 2 PROJECTS
Grade 6 (A2.1) Grade 7 (A2.2) A2 High Beginner Focus: Developing communicative competence in various contexts. Key Considerations: Authentic materials, diverse texts, discussions, presentations, writing tasks, comprehension strategies. Linguistic Components: All 4 components refined; strong emphasis on pragmatics (appropriate register in social vs. classroom contexts, comparatives/superlatives, past simple).	1. Podcast Mystery & Tone Analysis Materials: 90-second audio clips (radio interview, airport announcement, peer conversation). How it works: Students listen with guided organizer: Identify speaker intent, formal vs. informal cues, and note 3 specific facts (numbers, dates, places) to solve a mystery scenario. Evidence: Extracts key factual details and differentiates friendly vs. official tone.	2. Authentic Menu & Eco-Park Brochure Scavenger Materials: Real Panamanian restaurant menus and National Park trail guides. How it works: In pairs, students are given a budget (\$15) or mission ("Plan a 3-hour hike avoiding dangerous trails"). They skim and scan for prices, warnings, and schedules. Evidence: Locates specific functional information in authentic printed material.	3. Town Hall Role-Play: "Upgrade Our School" Materials: Role badges (Eco Club, Athlete, Principal, PTA). How it works: Teams debate spending a school improvement grant. Students state opinions using comparatives ("A garden is better than a vending machine because..."), negotiate compromises. Evidence: Participates actively in guided discussion, justifying choices respectfully.	4. Personal Diary Entry & Email Register Switch Materials: Double-column template (Casual note vs. Formal email). How it works: Students write a diary entry about changing schools, then rewrite the core message as a formal email to a teacher requesting project guidance. Evidence: Demonstrates correct past tense verbs, time sequencers, and register shift.	THEME 1: Project 1 (Peer & School Mediation) "Our New Classmates" Video Interview: Teams interview incoming students, editing a 2-minute welcoming video that summarizes school rules and highlights student advice. THEME 2: 21st Cent. Skill Project 2 - Panama Wildlife Conservation Infographic: Students research endangered local species (Sloth, Jaguar), synthesize facts, and create a digital Canva/paper infographic.
Grade 8 (A2.3) Grade 9 (A2.4) A2 High Beginner Focus: Consolidating communicative competence across academic and social contexts. Key Considerations: Diverse texts, presentations, collaborative discussions, writing workshops, reading comprehension strategies. Linguistic Components: Pragmatics (politeness markers, indirect requests), syntax (present perfect, conditionals type 1, complex sentences), nuanced vocabulary.	1. News Bulletin & Fact vs. Opinion Sort Materials: Recorded school news broadcast with 2 differing opinions. How it works: Students map speakers' claims into a two-column chart (Fact vs. Opinion), noting transition words that signal contrast (however, on the other hand). Evidence: Distinguishes objective facts from subjective viewpoints in oral discourse.	2. Dual-Perspective Historical / News Article Materials: Two short articles about the Panama Canal expansion from local workers & international shippers. How it works: Students annotate arguments using color-coding: yellow for economic benefits, green for environmental concerns, answering critical questions. Evidence: Identifies differing perspectives and cites textual evidence for each.	3. "Shark Tank" Sustainable Invention Pitch Materials: Pitch cue cards, visual prototype slides, timer. How it works: Trios pitch a sustainable invention for their community (solar-powered phone charger, rainwater collector). Each student speaks 1 minute, handling audience Q&A.; Evidence: Delivers structured spoken presentation with visual aid and answers queries.	4. Problem-Solution Letter to Community Leader Materials: Formal letter outline with transitional phrases. How it works: Students write a 3-paragraph letter to their Corregidor or School Director addressing a local issue (plastic pollution, library books), proposing 2 viable solutions. Evidence: Uses formal salutation, cohesive devices, and clear paragraph transitions.	THEME 1: Project 1 (Intercultural Mediation) - Cultural Bridge & Tradition Exchange: Students interview community elders about local folklore/festivals and create an English guide explaining cultural significance to tourists. THEME 2: 21st Cent. Skill Project 2 - Digital Youth Action Podcast / Audio Report: Teams write, record, and edit a 3-minute audio episode analyzing community traffic or recycling challenges with proposed fixes.

TABLE 1. LINGUISTIC COMPETENCE ACROSS CEFR LEVELS

Pedagogical Activity Matrix • Playful & Concrete Activities Aligned to 4 Macro-Skills and 21st Century Mediation Projects

GROUP 4: PRE-INTERMEDIATE (CEFR B1) • Independent Language Use, Academic Registers, Research & Critical Workshops

PROFICIENCY LEVEL & CEFR REFERENCE	LISTENING (LÚDICA & CONCRETA)	READING (LÚDICA & CONCRETA)	SPEAKING (LÚDICA & CONCRETA)	WRITING (LÚDICA & CONCRETA)	MEDIATION (21ST CENTURY) THEME 1 & THEME 2 PROJECTS
Grade 10 (B1.1) B1 Pre-Intermediate Focus: Solidifying independent language use and preparing for further studies. Key Considerations: Academic and technical vocabulary, formal/informal registers, complex grammar, critical thinking, research, writing workshops. Linguistic Components: All 4 components refined and integrated; passive voice, modals of deduction, academic collocations, cohesion in multi-paragraph texts.	1. TED-Style Talk & Cornell Note Matrix Materials: 3-minute authentic talk on tech/youth clubs + Cornell template. How it works: Students listen once for main ideas, second time for evidence/counter-claims. In pairs, they synthesize notes and formulate 2 critical inquiry questions. Evidence: Accurately records key data points and summarizes central thesis.	2. Multi-Source Fact-Check & Bias Detector Materials: 2 articles with contrasting biases on social media impact. How it works: Students evaluate source credibility, author purpose, and rhetorical language (emotive words vs. empirical data), synthesizing into a comparative matrix. Evidence: Detects slant, distinguishes claim from proof, and explains bias.	3. Parliamentary Mini-Debate (Oxford Style) Materials: Resolution card: "Schools should replace all textbooks with tablets." How it works: 4-person teams (Government vs. Opposition) deliver 2-minute timed arguments, points of information (POI), and rebuttals using formal academic stems. Evidence: Constructs cohesive spoken argument and responds spontaneously to challenges.	4. Academic Club Proposal & Member Notice Materials: Formal proposal template (Objectives, Budget, Timeline, Impact). How it works: Students draft a 250-word proposal to establish a new school club (Robotics, Model UN, Debate) plus a persuasive recruitment notice for school bulletin. Evidence: Employs academic register, passive constructions, and logical paragraphing.	THEME 1: Project 1 (Negotiation & Facilitation) - Club Governance & Conflict Mediation Workshop: Students simulate club executive board meeting, mediating conflicting member proposals to create a consensus charter. THEME 2: 21st Cent. Skill Project 2 - Interactive Campus Club Fair & Digital Hub: Teams build a live interactive kiosk and digital landing page promoting a sustainable school initiative to parents and peers.
Grade 11 (B1.2) Grade 12 (B1.3) B1 Pre-Intermediate Focus: Advanced independent language application in pre-university and professional contexts. Key Considerations: Technical vocabulary, academic registers, critical research synthesis, authentic materials, debate, project portfolios. Linguistic Components: Full competence integration across academic discourse; complex sentence structures (relative clauses, conditionals, discourse markers), professional pragmatics.	1. Panel Discussion Synthesis & Press Conference Materials: 4-minute simulated panel on renewable energy / canal logistics. How it works: Students act as journalists taking notes on 3 panelists' conflicting solutions, then write and ask targeted questions in a mock press conference. Evidence: Synthesizes distinct spoken viewpoints and probes underlying rationale.	2. Academic Paper Abstract & Case Study Analysis Materials: Simplified scholarly journal extract on climate resilience in Latin America. How it works: Students identify the methodology, findings, and study limitations; they formulate an executive summary table and critique the evidence. Evidence: Demonstrates advanced reading comprehension of technical academic text.	3. Professional Capstone Defense / Pitch Materials: Slide deck, presentation clicker, peer evaluation rubric. How it works: Students deliver a 4-minute formal presentation defending a community project or career research topic, fielding challenging questions from panel. Evidence: Sustains professional register, clear vocal delivery, and authoritative answers.	4. Writing Workshop: Persuasive Policy Brief Materials: Formal policy brief guidelines and peer revision checklist. How it works: Multi-draft writing of a 400-word policy brief addressed to the Ministry of Education or Environment, featuring data citations, counter-arguments, and action plan. Evidence: Clear thesis, sophisticated transitional devices, and error-free formal tone.	THEME 1: Project 1 (Intercultural Mediation) - Model United Nations / Youth Climate Summit: Students act as national delegates negotiating an international treaty, translating complex policy into plain-language agreements. THEME 2: 21st Cent. Skill Project 2 - Social Entrepreneurship Business Plan & Pitch: Teams author a full business proposal addressing a UN SDG in Panama, creating a video pitch and executive pitch deck.
